NO-PARKING AREAS ASSAILED IN REPORT TO BOARD OF TRADE

Chairman of the Committee Questions Eldridge's Right to Withdraw Spaces.

DIRECTOR HOLDS THEM **ESSENTIAL TO BUSINESS**

Says 403 Permits Have Been Issued: Findings Are Adopted After Deletion.

Withdrawal from public use of downtown streets by the establishment of hundreds of "No Parking" areas was assailed by George C. Shinn, chairman of the street and avenues committee of the Washington Board of Trade, in his annual report to that body at a meet ing last night in the Willard hotel.

When it is realized, Mr. Shinn said, that there are approximately 100,000 automobiles in the District owned by taxpayers and that the spaces for parking are at a premium, it becomes a pertinent inquiry whether the director of traffic has the power or should have the power to arbitrarily withdraw from the public the space in favor of the owners and tenants of buildings. buildings specified by Mr. included churches, hotels, stores, office buildings, the

aters, banks and quasipublic buildings.
"They were not designed for the benefit of an exclusive number of tenants or owners of buildings," Mr. Shinn declared. "The withdrawal from public use of spaces that will accommodate from one to three cars each, and the constantly-increasing number of these no-parking spaces calls for a cry of halt if the rights of the motorists to the reasonable use of the public space is to be considered. A second inquiry might be, if the larger or more in-fluential establishments can secure such a privilege, why can not the smaller or less influential citizens be given a like privilege?'

Held Out of Order.

Following a reply to these charges by M. O. Eldridge, traffic director, the portion of the report dealing with the traffic situation was declared out of order, and the fourteen-page report was adopted with that portion of it deleted. This action was taken upon the motion of Edwin F. Colladay and was ap-proved with a large minority vot-

In defending the establishment of the no parking areas, Mr. Eldridge declared that "it was absolutely essential that no parking areas be established." These areas, according to the traffic director, are essential in order that business may be transacted. "There are motor-ists in Washington who would park on the tomb of the Unknown Soldier if they were allowed to," Mr.

He said 403 no-parking permits had been issued and admitted that in some cases these permits had been abused. Churches were one of the offenders mentioned by the traf-

Mr. Shinn, in defending his re-port, declared he regarded "traffic" as "moving" and pointed out that the no parking question concerned a stationary condition existing on the streets and avenues over which his committee has jurisdiction. He also expressed his personal confidence in the sincerity of Mr. Eldridge's efforts to solve the traffic

CHICAGO GANGSTER MURDERS BAFFLING POLICE INOUIRIES

Motive of Shootings Is as Much a Mystery as Slayers' Identity.

THREE WOUNDED MEN EXPECTED TO RECOVER

Eighteen Machine Guns in Possession of Gangs, Say Detectives.

Chicago, Oct. 12 (By A. P.) .- Stoic gangland silence tonight shrouded the identity of the machine gunners who yesterday mowed down five men as the latest gesture in the war of extermination between rival gang factions for control of Chi-

cago's liquor traffic.

Every gangster went into retirement, leaving the police without a clew to the identity of the men who clew to the identity of the men who operated a machine gun last night from an apartment building window opposite Holy Name cathedral on North State street, killing "Hymie" Weiss and "Paddy" Murray, leaders of one gang faction, and wounding W. It was reported during the day that the police had ferreted out the hiding place of "Scarface Al" Ca-pone, powerful leader of the faction opposing Weiss, and had questione him. The police, however, would not admit this and Capone was not in custody.

Puzzles for Police.

Law enforcement authorities were trying to answer two questions: Who did the shooting? What

was the motive? They were confident that it was the result of some ramification of the two-year gang feud, but frankly admitted they were unable to find trace of the slayers and were like-wise powerless to stop a reopening of the machine-gun battle which they believe imminent.

Finger Rings Banned By School Authorities

South Shields, England, Oct. 12 (By A. P.) .- Finger rings have been banned from classes by the South Shields school authorities on the theory that adornment of this kind tends to distraction during lessons. Neither boys nor girls will be allower to wear rings in school

head when the education com mittee considered complaint of a parent against a teacher who had taken a ring from a pupil and retained it during studies. The Rev. J. Robson, speaking on the teacher's behalf, explained that the girl gazed constantly at her ring instead of attending to her lessons, and other girls had bought rings and brought them to school. The committee contend that the practice was prejudicial to the interests of both pu pils and teachers, and upheld the action of the teacher.

All law enforcement officials were unanimous in the opinion that gang land itself knew the identity of the iand itself knew the identity of the killers. They explained, however, that the gangsters settled their dif-ferences outside the law, and added that even if they were able to find lieutenants of Weiss' faction who

heutenants of Weiss faction who knew the identity of the slayers they did not expect to obtain any information from them.

The police said today that they are as powerless to find the specific assailants of Weiss and his companions as a captain of infantry would be to name the gunners who mowed down his men across the wastes of no man's land.

"Everything humanly possible has been done," said Morgan A. has been done," said Morgan A. Collins, superintendent of police.
"Of course we will do everything we can to find the murderers, but this thing has gone too far to be stamped out overnight."

O'Brien and the other two wounded men rested at hospitals. All probably will recover.

Yesterday was the fifth time on record here that the machine gun has been employed as a gang weap-

has been employed as a gang weapn. Its employment was an inno vation when one was poked into the door of a Southside saloon nine

nonths ago.
Such information as police and detectives can piece together from their knowledge of gangdom's oper-ations is the basis for an estimate that eighteen machine guns are in the possession of Chicago's feudal

Yesterday, the police said, the attackers of Weiss and his companions had two machine guns, one of which was carried in a motor car and the other being focused on the victims from an upstairs window of the apartment house. They chose the location because Weiss had an office above a little floral shop across the street which was once operated by his superior, Dion O'Bannion, later slain in his flower

shop.

Federal agents already interested in gangdom's manipulation of Chi-cago's liquor traffic and with in-dictments pending against Capone and 78 others for alleged conspiracy

to violate liquor laws, interested themselves actively in pursuit of the killers today.

Preparations were on for the opening tomorrow of the trial of "Jee" Saltis and "Lefty" Konell, beer runners, charged with a rival's murder. Despite the fact that O'Brien was their counsel. Judge Harry B. Miller said the trial should proceed with the defense in charge of Frank A. McDonnell, associated defense attorney.

Paris, Oct. 12 (By A. P.).—A wave of pessimism concerning ratification of the Washington debt settlement tonight submerged the obbies of the chamber of deputies. Tomorrow the finance committee vill consider the entire question.

The special committee, which has been investigating the agreement has finished its work. It makes neither criticisms nor recommenda-tions regarding the Mellon-Berenger agreement contenting itself with a eneral clearing up of the principal oints involved. During the afternoon it was said

that many members of both the finance and foreign relations com-mittee were a verse to considering the question at all until after the American elections.

The tendency which was strongly

toward ratification ten days ago has turned decidedly since the deputies began to return from the provinces for the present session in greater numbers. The predictions now are that the government will have a hard time to get the agreement rat-

Franklin-Bouillon Sees Failure. M. Franklin-Bouillon, chairman of the foreign relations committee of the chamber, vehemently ex-pressed the opinion in the lobbies today that the Washington settle-ment will never be ratified as it stands. He declared also that the government probably will not de mand ratification without modifica-

tions.

This change in sentiment on the part of many deputies is said to be due largely to the recent action of the former soldiers in protesting against France assuming too great a burden on the question of debts. Praise For Al Smith.

"I want to say that the committee is unanimously of the opinion and judgment," Mr. Woll said. "That ther's is no man in official life who has served labor better, and the common people as a whole, in his capacity as kovernor of New York than Alfred E. Smith and that the committee did not turn down Gov. Smith, but rather we were not in position, and it is improper at this time to consider any presidential candidate no matter how favorably he might appear to ns."

After approving two resolutions pledging financial support of the striking textile workers of Passaic, N. J., the delegates contributed \$300 to a relief fund and pledged more than \$3,000 in future payment.

Presumably, Adams was questioned concerning his allegations that public officials high in the State, county and city governments, entered into corrupt agreements with D. C. Stephenson, former grand dragon of the Ku Klux Klan, and now serving a life sentence in the State prison for the murder of Madge Oberholtzer.

The grand jury adjourned until tomorrow after hearing Adams.

The Biggest Sign in Town

Not in size, perhaps, but in what it stands for. Whenever you see a "GOOD PLACE" sign on business houses, hotels, restaurants, garages, filling stations, repair shops, etc., it is a guarantee to you of dependable service, courteous treatment and the same fair prices to all. It signifies that a representative of the Tourists Protective Guide has made an investigation of the establishment and recommends it as a "GOOD PLACE" to deal with.

Makes You Feel at Home in a Strange Place

If you follow the "GOOD PLACE" signs when you motor to a strange city, you will not need to worry about a place to eat, sleep, repair the car, or make your purchases. You can always hail the "GOOD PLACE" sign as a friend in need, and the proprietor of each establishment displaying the sign will gladly tell you the names of other "GOOD PLACES" in different lines of business in his city. All such places enjoy a local reputation for fair dealing and deserve the patronage of tourists.

Our Guarantee

The management of each establishment displaying "A GOOD PLACE" sign is under a definite contract with us to operate on a strictly "one price to all" basis and to use no fraudulent or misrepresentative statements in any of its advertising. Should you ever receive service at any place displaying our emblem that is not fair and representative, considering circumstances, its manager will appreciate it if you will ask for an adjustment. Should the proprietor not make what you believe to be a fair adjustment, if you will then write us, giving full details, WE will immediately make an adjustment with you. -how much longer must these twin evils pick your pocket and mar your motoring enjoyment

> TWO items alone—grinding valves and removing carbon—account for at least one-half the up-keep cost of the ordinary automobile ... Every owner knows that ...

The Willys-Knight Great Six wipes out all this expense . . . in its Knight sleeve-valve engine - patented, exclusive - there are no valves to grind-no carbon to remove...

Carbon cannot harm the engine of the Willys-Knight Great Six. Hence, carbon troubles, and the expense and inconvenience of remedying them, never enter into its owner's calculation ...

In fact, the presence of carbon in the Willys-Knight sleeve-valve engine only serves to seal compression, to prevent waste of power . . . It is a desirable agent. Instead of hampering or harming, it actually helps this engine to perform.

VOTERS NEGLECT THEIR DUTY.

The American electorate, notoriously indifferent as the returns almost invariably show. is rebuked from high quarters in the message of the President to the American Legion convention at Philadelphia. And a warning also comes from the White House directed by the President to his fellow countrymen and women of voting age everywhere:

We can not retain our liberties under our representative form of government if we do not keep it representative. Too much stress can not be laid on the necessity of getting out the vote.

The processes of education along this line move slowly. In the selection of many public officials the stay-at-home vote is the balance of power. A different result in many instances would have been brought about if 70 or 80 instead of 50 or 60 per cent of the voters had gone to the polls. The discouraging prospect of "getting out the vote" usually causes candidates and campaign managers more anxiety than all the other issues combined.

It would appear that citizens do not concern themselves ordinarily with the ambitions of candidates for office. Whether the Hon. T. Jefferson Batkins, of Cranberry Center, is returned to Washington or otherwise interests a large minority of his constituents not at all. "issues" in each campaign are more or less a repetition of threadbare arguments.

It is quite possible that if the country was called upon to decide some great social question the voters would march to the polls with flying banners and full ranks. If there were a national referendum, for example, on the repeal of the eighteenth amendment to the Constitution, it would probably not be necessary for the President to urge his fellow citizens to vote in order to assure a thoroughly representa tive expression of public opinion.

In this particular year the President's appeal for a larger participation in the election November 2 should strike a responsive chord in New York, Massachusetts, Missouri, Ohio, Illinois, and several other States in which the two great political parties are seeking to elect their candidates to the Senate. Not only is control of the important committees in the Seventieth Congress at stake, but the struggle over the Presidency will be profoundly affected by the complexion of the next Congress.

ADULTERATION OF FOOD.

Congress has enacted law after law in the interest of the public health, and one class of citizens has been almost equally active in attempting to discover means of evading those acts of Congress. It has been necessary to watch legislation at all times to prevent nulli- Lake Erie. fication of the nure food law through "amendatory acts" designed for the sole purpose of legalizing the introduction into foods or drugs ingredients which do not legitimately belong in them.

Walter G. Campbell, of the Department of Agriculture, in charge of the administration of the pure food law, calls attention to the fact that there are at least two bills pending which will be pushed for consideration by the modificationists, the passage of which would be the entering wedge toward the destruction of the legislation which has proved so highly honeficial "The great danger is that a complacent public spirit," says Mr. Campbell, "may permit the passage of these bills before their real menace is understood and public sentiment aroused against them."

The advocates of amendments which will permit the use of preservatives in foods, which chemists, such as Dr. Harvey W. Wiley, declare to be deleterious to health, are the most active in urging the enactment of these bills. Chief among the adulterants and preservatives that must still be kept in the spotlight of publicity, according to Dr. Wiley, are benzoate of soda. alum, saccharine and sulphur dioxide.

The Department of Agriculture, supported heartily by Dr. Wiley and others, will institute campaign to revive interest in pure tood enforcement and to guard against encroachments by adulterators.

Rarely is an announcement of such interest as to command the attention of every citizen of the United States. If the New York section of the American Chemical society, however, succeeds in its announced intention to do away with "sniffles," or the common cold. every citizen will be grateful. Every one, everywhere, at some time or other during the parade of the twelve months, meets, and usually is conquered by, this common ailment. Because of its universality, because of the fact that a cold is not, in itself, fatal or even particularly dangerous, science has not. in the past, devoted much attention to the cause or the cure. Warnings against wet feet and exposure to drafts are given regularly by wives and mothers, and usually are unheeded. Colds are contracted, home remedies administered, and in course of time the ailment passes.

leaves its indelible mark on the syste

dividual more miserable during its course. A few days ago a prominent Baltimore physician and teacher announced that he would undertake a study of the disease single handed. Now the New York chemists are busy forming a committee consisting of representatives of chemistry, medicine, pharmacy, bacteriology and other professions to make a cooperative study of the sniffles.

By the end of the year it is expected the campaign plans will have been completed. The public, age-old sufferers from this mysterious complaint, will freely predict failure. Science gave man wings, however, and made it possible for him to walk on the floors of the ocean, so, after all, something may come of this effort, to the everlasting benefit of humankind.

KEEP OUT OF THE MALL.

The fine arts commission went on record officially vesterday against encroachment upon the Mall by any of the buildings proposed to be erected under the \$50,000,000 public building program. This decision will be received by the people of Washington with feelings of satisfaction and gratttude. Public opinion in Washington long ago crystallized in opposition to any scheme that would tend to divert that reservation from the purpose to which it is dedicated. The Mall was designed to be a park, and the time is not far distant when it will be in the center of a congested district that will profit from the foresight of the enlightened men who laid out the plan of the city. No person, official or otherwise, should be permitted to diminish by a single square yard this magnificently wooded and beautifully planned reservation.

While it is true that under the law the building commission is the authority that determines sites and the character of public buildings to be erected thereon, the views of the fine arts commission and other advisory bodies will have great weight.

The text of the decision reached by this body was made public yesterday in the form of a letter to Senator Smoot, chairman of the building commission. The proposal upon which it passed was that the new Department of Commerce building should be erected on the north side of the Mall, opposite the Department of Agriculture. The fine arts commission, after long and painstaking investigation and study, voiced its opposition to the utilization of the park area in question for any departmental building. It holds that purely business buildings, no matter how ornamental in character they may be, have no place within the inclosure of the Mall. If structures of any kind are to be placed there they should be monumental, such as the National museum and the Freer gallery, which will accommodate themselves to landscape feature's essential to park building.

In line with its uniform policy of making its recommendations and criticisms constructive, the arts commission suggests that the Department of Commerce building should be located on the site now owned by the government between Fourteenth and Fifteenth streets, south of Pennsylvania avenue. Public opinion in Washington will support these conclusions on all points, and it is to be hoped the building commission will accept them without further delay, in the interest not only of the city but of the entire nation, which is vitally concerned in the beautification of its Capital.

"THE MARRIAGE OF THE WATERS."

One hundred years ago this month the waters of the Great Lakes were joined to the Atlantic ocean through the completion of the Erie canal. This week celebrations are in progress all along the Erie from Cohoes to Buffalo. Even New York city itself, which owes its commercial supremacy largely to the canal, is joining heartily in the celebration.

Today in several villages in the western section of the State "The Marriage of the Waters" is the basis of the scene which is being reenacted. That painting shows Gov. Clinton on the deck of the Seneca Chief pouring a bucket of water into the Atlantic at Sandy Hook. The water was dipped out of

To make the pageants as realistic as pos sible in their reproduction of the "marriage ceremony" one of the boats of the Munson steamship line, which has been rechristened the Clinton, is traversing the "raging canal," loaded with a keg of Atlantic water which is to be deposited in Lake Erie when the flotilla arrives in Buffalo. George Clinton, grandson of the governor who first connected the fresh and the salt seas, will pay back to the lakes the water which the Atlantic bor-

rowed a hundred years ago. But the celebration of 1926 is a very tame affair compared with the original ceremony The formal opening of the great "State ditch" marked an epoch. It brought the products of the grain fields and the mines of the Northwest to the seaboard, and was the corner stone, so to speak, of the empire which has since been built up between the Hudson and the lakes. The men and women of today can have no conception of what the canal meant to the pioneers of 100 years ago.

The centennial of the Erie canal is simply "moving picture show" to the present generation.

DETROIT'S LABOR STRUGGLE.

The American Federation of Labor, now in session in annual convention in Detroit, has declared its nurpose to begin a campaign to unionize the metal and automobile industries of that city. The board of commerce of the Michigan metropolis, center of the automobile industry of this country, backed by the Employers association, has taken up that challenge, and the fight is on to prevent the establishment of the "closed" shop in Detroit.

If organized labor wins the fight, the princi ples upon which the Ford plants are operated will be completely overthrown. To accomplish such a result seems to be well-nigh impossible Employers of labor in Detroit have announced their purpose to oppose the unionization cam-paign to the bitter finish. An official spokes man for the commerce body, in a statement designed to meet the eyes of leaders of organ ized labor while their convention is in session, declared that "Detroit is determined that it shall not be in the grip of trade union leaders; it is prosperous because it is a stronghold of

The only reply to this was the statement from labor headquarters that the American leaves its indelible mark on the system, and rederation of Labor had made its decision and that the organization campaign would be ation of Labor had made its decision and

launched as soon as plans were completed. Labor leaders and delegates to the convention were taken through the Ford plants and shown the same courtesy that is extended to other visitors. It was significant that their appearance aroused no interest among the workmen who continued steadfastly in the performance of their respective duties while labor leaders watched them and plied their guides with

questions. There were evident indications that this was not a fertile field for a unionization campaign but labor has a habit of being persistent and patiently plugging along in the direction toward which it aims. After studying the plant and having Henry Ford's business ideals expounded, one of these leaders expressed the view that instead of helping his workmen and making them better Americans, the Ford system "creates men who can not but help being good material for the radical demagogue to work upon." It will be hard to convince the highly paid labor in Detroit's varied industries that their lot is so unbearable. Advocates of the open and the closed shop will watch the effort at unionization with much interest, as it promises to be a gigantic struggle for

THE WOMAN VOTE.

An official of the Federation of Women's Clubs recently stated that women as "ward heelers" possibly would elevate that occupation into public respect. There is no doubt of it; but before women undertake that part of the game of politics they must realize the importance of going to the polls themselves and casting their own vote. Apparently their desire to vote is waning.

Women fought valiantly for the franchise The struggle to force the nineteenth amendment through Congress developed a degree of militancy among the gentler sex that amazed the country. Of the 48 States only Alabama, Virginia and Maryland rejected the amendment. Suffrage without regard to sex became effective by proclamation on August 26, 1920, and the first general test came in the presidential election of that year. In several States women already had been given the right to vote for certain officers.

Estimates made by statisticians, based upon ection figures, indicate that American women in 1920 cast approximately 10,000,000 of the total 26,713,832 popular vote for presidential electors. This was 37 per cent of the vote. Forty-three per cent of the women of voting age voted in 42 of the 48 Figures likewise show that the interest of the majority of women does not extend to all elections and offices, but principally exhibits itself in the presidential elec-

The Federation official referred to says that when women do become "ward heelers" some very interesting things may be expected in the wards in which they operate. "Tenacity and tirelessness being two chief feminine qualities, added to long experience in organizations, should have some effect upon a neighborhood," she observes. Neighborhood and community interests are best served by participating in the selection of the right kind of candidates and fighting doggedly for their election. Nothing so affects the interests of the people as the election of good judges; and vet statistics show that it is in just such elections that the woman vote fails to exert its proper influence.

The "ward heeler" is the active agent of the local political "boss," whose business it is to round up all the voters and not only see that they vote, but that they vote "right." The bosses and the heelers are ever on the job, and that is why it is so difficult to overthrow a well intrenched machine. If woman entered this field of political activity in the spirit her champion celebrates, politics might soon be purified; but can she do it? Is she willing to put herself to the test? That remains to be seen.

In 1920 the vote for President was greater by 44 per cent than that of 1916, when men voted. As stated, women are given credit for 37 per cent of the 1920 vote. increase in the total vote in the presidential election of 1924 was only 8.8 per cent over 1920. Taking into account the natural inn voting populations, the would not appear to have held its own in that percentage. As between the presidential elec-tions of 1912 and 1916, before general suffrage was adopted, there was an increase in the total vote of about 23 per cent. If women are to exert their rightful influence in elections they must take a greater interest in politics and be indefatigable in getting out their

TEARING UP THE STREETS.

The fact that 60,000 lateral cuts are made in street pavements here each year is rather startling, especially when one considers that this is probably approximately 75 per cent more than are made in any other city of the same size as Washington. On the other hand there are few motorists who will feel this figure is large enough by even one-tenth, for always in Washington there has been complaint against the torn-up condition of the streets.

Part of the trouble is due, of course, to the fact that the District of Columbia insists that all wires, of any nature whatsoever, be buried beneath the surface in conduits. There is a provision against longitudinal street cuts with in one year after the paving is laid. No provision against lateral cuts, however, has ever been enforced, except that the person making the cut has been assessed the expense of re-

The justice of this is apparent. Obviously, restrictions against lateral cuts not only would hamper all new building, but might also create a trying situation in case of necessary emergency repair. The privilege has been abused. however, in that persons making such cuts have been careless in refilling the cavity, thus making it impossible to repaye without further settling of the surface. For this reason it has been the policy of the District government to wait some time before attempting to replace

the road surface. At a meeting of the District underground enstruction committee, held last Monday, steps o halt such abuse were taken. In the future epaving will be completed immediately, and if nuddling and ramming of the fill are not sufficient to prevent sag, the cut will be reopened and repayed by the District, and the cost passed on to the responsible party. If this new policy carried out strictly, and if in the future suficient provision is exercised to make certain that eventual requirements of new streets will have been relieved.

Legion Project Indorsed.

"If the American government is to be a success," he said, "the American people must vote. Indifference in the attitude of the American public toward the franchise is the greatest existing menace to American institutions. It is tending to substitute government by aggressive and interested minorities for government by the people.

"Especially is this the case in State, county and city elections. The percentage of the qualified vote cast in nonpresidential years is far below the 52 per cent cast in the 1924 presidential election. After making some examination into statistics gathered from different localities I

Since there are still two dominant political parties, the vote in most localities is quite evenly divided between them.

Minority Elects, He Says.

"In such event the election of the candidates to be voted on at a full such and the source of the candidates to be voted on at a full such and the source of the sused to carry troops to the Marne. The message of President Doumergue, of the French republic, inviting the legion to Paris, said:

"I send my most cordial salute to the American legion and rejoice in thinking that its next annual convention in paris next, year was presented. This was preceded by a French chauffer attention between the procession and the score of air craft overhead. It was from one of these planes that the bomb fell.

Weighing 15 pounds, it tore a hole in the roof of a house in the central district and came out a window.

Col. A. E. Osborne, 90, Dies in North Carolina 1927.

"In such event the election of the candidates to be voted on at a future election is determined in each party by a majority or plurality, as the case may be, of only about 12½ per cent of the qualified voters.

Under such circumstances men who are elected to office are thus selected by a small minority of around 7 per cent of the qualified voters.

"When you, veterans of the world war, arrive in our ports next year, all the French will greet you, remembering that nine years ago, during tragic hours, you came with admirable enthusiasm, bringing all the strength of your country to the service of right.

but for its constant use in the carrying out of its legitimate projects.

"Especially is this true in connection with state governments. Immense road-building projects are
being carried out by states, assisted
by the national government. Our
state and city administrations are
accustomed not only to use public
employes in getting out a primary
vote to maintain an existing administration in power, but in many

places all those interested in construction or other public contracts with their organization and employes are expected to perform active service in getting out the primary vote for the same purpose.

"At the time, therefore, when, owing to the indifference of the public to the franchise, the number of qualified voters necessary (c control a primary election is lessening, the number of those having a business interest in the continuance of an existing administration and willing to work at the polls for it is rapidly increasing.

"Controlled Vote" Growing.

"While the general and impartial

"While the general and impartial vote is decreasing, the controlled vote is steadily increasing. It is to be hoped that in most localities there is a scrupulous and proper use of centralized power, but it is not too much to say that in some States and cities the power of the administration is so exerted that the dominant party will always present candidates at the election selected by those having a business and personal interest in the continuance of the administration. Where this is the case we have changed from a representative government of the people into an oligarchy dominated by self-interest. As time goes on the evil increases.

"As long as our primary system exists there is but one remedy for the situation, and that is to increase the number of impartial voters of both parties, not only at primaries but at general elections. We have lost our free government if those interested in direct business relations with government, either as employes or through contracts, are the ones who control the nomination of candidates."

of Fine Cough Syrup

If you combined the curative properties of every known "ready-made cough remedy, you probably could not get as much real curative power as there is in this home-made syrup, easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup, or clarified honey, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the throat tickle and heals the irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and it is splendid for broachitis, hoarseness and broachial asthma.

General Lien Twenty-Year 6% Gold Bonds

Dated August 2, 1926

The Company agrees to pay interest without deduction for any normal Federal Income Tax not exceeding 2%, which the Company or Trustee may be required or permitted to pay at the source, and to reimburse the resident holders of these bonds, if requested within 60 days after payment, for the personal property tax in the States of Connecticut, Pennsylvania and California, not exceeding four mills per annum, State of Maryland not exceeding four and one-half mills per annum, State of Kentucky not exceeding five mills per annum and also for the income tax, not exceeding 6%, on the interest thereon in the State of Massachusetts.

Mr. F. A. Matthes, Vice-President of the Company, summaries his letter to us as follows:

Business and Properties: The Tide Water Power Company furnishes to the public without compeand power will be served to a territory in Florida extending from St. Petersburg northward along the West Coast and though Central Florida to the Georgia State Line. It also furnishes all the gas and street railway service in Wilmington. The construction program of the system now under way in Florida involves the expenditure of over \$6,000,000. It includes the construction of a 25,000 k. w. steam generating station; the installation of a 1,600 k. w. hydro turbine with accessories in one of the hydro electric plants; the construction of approximately 70 miles of 110,000-volt steel tower transmission lines; and the construction of approximately 200 miles of additional high tension wood pole transmission lines.

Consolidated Earnings: As officially reported for the 12 months ended August 31, 1926:

He Stares.

If stares.

Y DEAR Miss McDonald:
I would like to state my problem to you. I am 21 and have been married three months. My husband is 26 years old. We are about the happiest couple alive, as we adore each other and every one says we are unusual in our devotion. He is just as attentive as ever, showing me all the little attentions which a woman appreciates, bringing me candy, gifts, etc., and is just as tender and gifts, etc., and is just as tender and gifts, etc., and is just as tender and loving as he was during our engagement. Every one says I was lucky to get a man like him these days, as most of the males are so undependable and flighty.

There is one thing, though, that bothers me. When we are out to-gether my husband stares at those painted dolls that pass, occasional-ly even turning his head to follow other man has any attraction for me. While I trust my husband and know positively that he will always be faithful to me still this annoys me. It makes me feel cold and indifferent to him for a while. oys me. It spoke to him about his filtring once, but he says he is not filtring and that it is only natural for him to look at these girls and there is no harm in looking. I don't think I would mind so much if he did this only occasionally, but I see it so of them. Every girl that passes has his eyes on her. Usually the girls me to be concell is the cause. Fire Would Cause Millions of Loss to Business, Says Commisioner Roberston.

DEMANDS NEW BUILDING

The patent office as it is now constituted is a potential loss to business of millions of dollars, business of millions of dollars. Thomas E. Robertson, patent commissioner, told the American Patent Law association meeting here yesterday. A disastrous fire in the building would be a "national calamity," he said. Records would be destroyed which could never be replaced. A new modern building is the only solution, he declared. The present day patent business

ENCYCLOPÆDIA BRITANNICA

In the NEW FORM NOW NOW ...

Amazing Bargain Offer

New Policy Breaks all Publishing Precedents

WITH the publication of the new Thirteenth Edition, the ENCYCLOPÆDIA BRITANNICA has inaugurated a radical change in publishing policy — a change which makes it possible for YOU to secure this new Britannica AT ONCE—at a sweeping reduction in price!

Another Britannica Triumph

This new policy—a policy without precedent in the publishing business—is another Britannica triumph. This is the latest in a long series of startling and successful innovations which have put the ENCYCLO-PEDIA BRITANNICA far in advance of all other works of reference.

Hitherto, it has been the custom of all publishers to bring out new important works in a single high-priced edition. Costs of book manufacture are high. It is only natural that the publishers should desire to recover their initial costs before bringing out a less expensive edition. But the result has always been that only the well-to-do could afford such a book while it was new.

Why This Offer Is Made

Because the Britannica is primarily an educational institution—and because the splendid new 13th Edition, just completed, is by far the greatest aid to practical education ever produced—both the editors and publishers were anxious to give it the widest possible distribution, regardless of temporary profit.

Old-fashioned conservative publishing policies, which insured a large return from relatively few purchasers, were fearlessly swept aside. Such policies were against bringing out this new edition in a popular-priced form side by side with the more expensive Cambridge Issue, the De Luxe format in which earlier editions have been first produced.

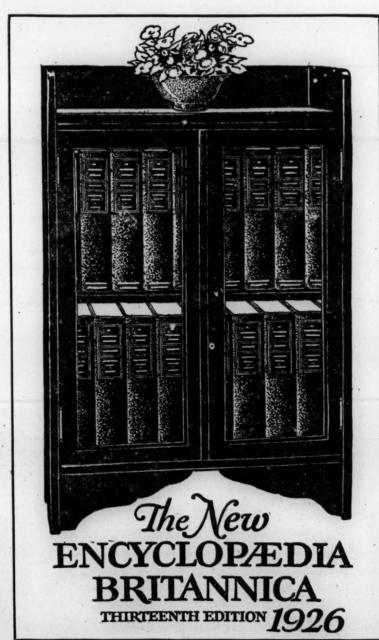

But, to follow old-time custom would mean limited distribution. It would mean that thousands and thousands of persons of moderate income would be compelled to put off buying their sets for many months—perhaps for years.

And so it was decided to give everyone an equal opportunity to obtain this complete new Thirteenth Edition now, at a sweeping reduction in price—a price, in fact, that means a saving of more than 40% as compared with the more expensively bound Cambridge Issue.

How You Can Save 40%

To give YOU this amazing opportunity, 15,000 sets of the complete new 13th Edition have been bound in the NEW FORM—a method first introduced by this Company two years ago, and now famous throughout the world. It was instantly acclaimed a master stroke of genius, and more than 60,000 sets were sold in this popular form.

The specifications of the NEW FORM have been published broadcast, in every civilized country in the world. These specifications, which are the secret of the amazing success of the NEW FORM, make it in many respects the most attractive, compact and

convenient form in which the ENCYCLOPAEDIA BRITANNICA has ever been issued. They are:

- (1) Large type, easy to read.
- (2) Complete and latest text (nothing omitted, nothing altered).
- (3) Fully illustrated. (All the original plates, maps, etc.)
 (4) Sweeping reduction in price. (More than 40% below the price of the famous Cambridge Issue.)

How We Can Do It

How is this amazing bargain made possible?

First of all, by means of mass production. More than twentytwo acres of floor space were required at our printing plants to

produce this Thirteenth Edition in the NEW FORM rapidly and economically. Huge orders were placed for all materials. Britannica resources made this possible.

Second, by binding the 32 volumes as 16 (two volumes in one cover), thus saving 50% of the binding cost.

Third, by printing the NEW FORM from the same plates used in the higher-priced Cambridge Issue, thus saving the cost of resetting 33,000 pages of type. The use of these plates is your guarantee that the text is identical in both issues.

What You Get

You get in the NEW FORM everything contained in the more expensive Cambridge Issue—and at an amazing bargain!

You get the same 45,000 separate articles, by more than 2,500 world-famous authorities covering every branch and every avenue of human activity, from the beginning of the world, right down to this very hour. Such famous men and women as Albert Einstein, founder of the Theory of Relativity, Henry Ford, Bernard Shaw, Marshal Foch, Sigmund Freud, Andrew W. Mellon, L. Trotsky, Joseph Caillaux, Dr. Adolph Lorenz, Senator Marconi, George Eastman, Mme. Curie, Dame Millicent Fawcett, and Suzanne Lenglen, are numbered among these contributors.

You get also the full record of man's achievement during the "short but tremendous epoch" from 1910 to 1926—those transforming years in which the world has gained a century.

You get timely, practical information concerning all the new developments—actual figures and specifications for your immediate use.

Dempsey Says He'll Return To Ring

Ex-Champ to Face All Comers After Hard Training Period.

Seeks Another Chance With Tunney; May Box at Tia Juana.

New YORK, Oct. 12.—Before leaving their apartment at the Hotel Belmont to go into seclusion in an apartment at an undisclosed address in or near New York Lock Dewnsey denosed cham. York, Jack Dempsey, deposed cham-pion of the world, declared he meant to attempt to fight his way back to supremacy in the ring and admitted that if he recovered his form he might engage in his next match for Jim Coffroth at Tia

Juana this winter.

"I'll take on all comers, provided, after two or three months rigorous training, I believe myself fit to re-

work and boxing.

"If at the end of that time I leed fit. I will start fighting. I will make a tour, taking on all comers, good or bad. I don't expect to make money. I may lose some. But I want to test my fighting mettle and determine if I have the stuff left.

Drako was lacking in all the essentials of a fighter.

Drako took everything the stocky Dempsey had for a dozen rounds and only once appeared on the road to a K. O. This came in the fifth round when he stopped two terrific uppercuts to the stomach.

I EXPECT to fight myself into shape, to regain my judgment of distance and my speed that I lacked at Philadelphia. By next

I believe I'm that now, and that I could have a shot at the champion any time. But I want to prove positively to myself that I am the logical challenger, and that

I am fit to show at my best.

By WESTBROOK PEGLER.

N EW YORK, Oct. 12.—Jack Sharkey, a young Lithuanian fighter from the region of Boston, bombarded Harry Wills, the plaintive negro, for a dozen rounds tonight, and won in the thirteenth round when Patsy Haley, referee, disqualified Wills and sent him to his corner, licked and a loser, for fouling Shar-

wills had taken a whipping all the way, but Sharkey is such a light puncher that he couldn't tumble the towering black man, although he did seem to be wearing Wills down after the sixth round was passed, and might have flattened him with a random swipe if they had been allowed fight on. Forty thousand customers saw the fight at Ebbetts field

Thus Sharkey, whose square name is Joseph Paul Cokoschay, eliminated the dark shadow that had clouded Jack Dempsey's title to the heavyweight championship and remained to becloud Gene Tun-ney's claim. He gave Wills an ad-vantage of 26 pounds in the tonnage and at least 6 inches in length, but slipped in, weaving and rolling be-neath the long sinewy arms of the quondam cargo handler and plunked him freely on the chin with both

When he closed in Sharkey drummed airily on the negro's middle, which flaps loose like a deflated drumhead, now that Wills has grown old, and although Harry pretended to be amused by this agita-tion near his belt line in the first few rounds, he never smiled after the sixth.

I T was in the sixth that one of Sharkey's overhand punches, coming out of the confusion of a sudden shift, caught Wills beneath the right eye and ripped the skin, blurring Wills' vision. The wound did not swell noticeably, but the eye became inflamed as though there had been a dab of resin powder or liniment dab of resin powder or liniment on Sharkey's glove.

BLONDIN BEATS STAKE HORSES IN FIFTH AT LAUREL

Draws Away At End

Aucilla Picks Up Little Asbestos at Turn and Captures Fourth.

Acorn Best Juvenile; Suky, Overlooked, Scores in Third.

AUREL RACE TRACK, Oct. 12. AUREL RACE TRACK, Oct. 12.
The Columbus handicap, which
was featured at Laurel this
afternoon, proved an easy victory
for Harry Payne Whitney's Blondin.
Ridden by L. McAtee and rated off
the early pace, Blondin responded
with a great stretch run, and drawing away into an easy lead the final
furlong, won with lots in reserve
by two and a half lengths. By Hisself was second and Harry Baker
third and then followed the favorite Big Blaze.

ite Big Blaze.

Blondin ran the mile and a furlong in 1:51. Edisto and By Hisself set a very fast pace and raced like a team to the far turn, where the Jeffords horse drew away. In the stretch run when Blondin made his effort By Hisself had nothing left and tired. Big Blaze was in close quarters going to the first turn and was crowded out of it. He could never make up the lost ground. The fractional time was 23, 47, 112, 3-5, 138, 151.

Blondin's victory made it a dou-ble for the Whitney stable after Acorn won the first race. McAtee also had the mount on this winner. UCILLA caused another

UCILLA caused another upset when he scored without being extended in the running of the Aragon elaining handicap, which occupied the fourth position on the afternoon program and the next best offering to the Columbus handicap. Millwick accounted for the place, beaten three lengths.

The start for this number was a good one and Little Asbestos scampered away into a three length lead on reaching the back stretch and he continued to show the way until rounding the turn for home where Millwick and Aucilla put him away while the others could not make any challenges whatever.

Fourteen maiden juveniles started activities when they were asked

Fourteen maiden juveniles started activities when they were asked to speed over the 5½ furlong route in the day's opener and a stubborn contest came about. It was accounted for by H. P. Whitney's Acorn in a severe drive with her winning margin being a half length over the Audley farm's Spanish Aster who in turn beat out the stoutly-supported Fairness from the J. E. Widener establishment two lengths for the place honors.

Acorn, breaking from next to the outside position, raced into a short lead and stalling off early opposition from Billie Burke held on tenaciously when called on to meet

The mile of the second event brought forth an equal amount of starters to travel over the increased distance, and with the running came distance, and with the running came the first victory in some time for the Canadian - owned Greenbriar stable when Glenister II, racing within striking distance of the pace set by Dream Maker from the rise of the barrier until well into the home stretch, managed to put his rival away as the sixteenth pole was reached and passed the winning mark just a head to the good of the Bostwick starter.

M IDIN ETTE, enjoying favoritism, was the one to account for the small end of the purse by a nose over the fast-traveling Blow Horn.

The afternoon's biggest upset ame about with the decision of the third event which for the second

OLLYER'S COMMENT OF LINE SPORT OF KINGS

AVE a heart! Show some mercy to those poor starving handbookers who are always letting out a squawk about being loser. Send flowers to Sidney Girardi, "Big" Floyd and "King" Edward down at Louisville for they are going to be murdered on the good things running at the various tracks. MY COLONEL is the hot persimmon at Latonia. Milo Shields has sent word to Tom Pendergast at Kansas Cty to unload an already the overnight commissions have commenced to show. This is oil in the can and SHOSHONE is the only eligible with a chance to upset the dope. CALOOSA is the sleeper to be turned loose in the opener. There is money for this one from Maine to Spain. Get yours, while the getting is good. Col. Phil Chinn will have ARCHITECT ready in the second, while SELECTIVE and EQUITY are also to be brought out of the old pickle vat during the aft.

DEVITT AND GONZAGA MAY MEET IN GRID CLASSIC

Schools Plan For Battle Next Week

Good Early Records Made by Both

A VICTORY over Devitt would strengthen Gonzaga's claim to another District title, providing the schools which now shun the Purple continue to do so.

Another prep school game which seemed doubtful at the start of the season has been scheduled. Devitt and St. John's will meet Saturday morning on the Georgetown Uni-versity field at 10 o'clock. Devitt was originally scheduled to play the Hilltop freshmen but the frosh were forced to cancel the game because of duties arising from the West Virginia-Georgetown game.

Pat Monyaa, of Devitt, is the latest to join the large high and prep school hospital list. Monyaa suffered a strained back in the Eastern game last Saturday and was forced to enter Georgetown University hospital yesterday. He is not helicred to he seriously injured. not believed to be seriously injured, however. Nelson Head or Kirk Hop-per will play fullback Saturday.

Not that Hogarth has the flaming top-piece which adorns the real "Red," but both have a leaning to the ice business. But it's an off now the second of the composition Cy" Hogarth, captain of East-

On the advice of Coach Guyon, Hogarth will not play football. In-scead, he will save all his energy for basketball in order that Eastern may earn, he hopes, a full share of the championship instead of dividing the honors with Central as was the case last year. So Hogarth is in the gym while his heart is undoubtedly on the gridiron.

Altrock and Schacht Appear With Lenglen

Nick Altrock and Al Schacht, omedy kings of major league baseball, have shifted their antics to the professional tennis stage and are due to take part on the program of matche scheduled for Suzanne Lenglen at the Fifth Regiment armory,

Baltimore, tomorrow night.

They made their first appearance with Mile. Lenglen at Madion Square Garden recently, preenting a burlesque on tennis and the gales of laughter they drew from the audience were so pleasing to Promoter C. C. Pyle that he offered them contracts accompany the Lengler troupe on its tour of 40 cities throughout the country.

TWO D.C. MEN **OUALIFY IN** ARMY GOLF

Majs. Lowe, Naiden Qualify on Links at Philly.

with 188. Maj. Lowe, who is secretary of the U. S. A. G. A., won the play-off and entered the championship flight.

POURTH on the list of qualifiers was Maj. E. L. Naiden, Washington, D. C., with an 80-87-187. Maj. Naiden led in the first round, but faltered in the afternoon and increased his card by seven strokes. He was the only other to break 170.

The Third corps which takes in Pennsylvania, Delaware and Maryland, won the Corps Area team chapionship title with a score of 346. The Eighth gave them a close run and finished but one stroke behind while the Second was third with 348.

Boston College Wins Over Fordham, 27-0

a matter of picking the packing

HOW much fun you get out of a pipe depends largely on one thing: the tobacco. The pipe itself is the accessory, after all. The tobacco's the thing. That's why the most contented bunch of smokers in the world smoke Prince Albert exclusively.

The instant you open a tidy red tin of P. A., you know this tobacco is unlike any other. That warm, rich fragrance! Only real tobacco could give off such an appetizing aroma. You are completely won to P. A. when you smoke that first load.

Cool as a cove, sheltered from the beat of the sun. Sweet as a breath of clover. Fragrant as fresh-cut flowers . . fragrant and mild. Yet with a body that satisfies your smoke-taste right down to the ground. A rare combination, Men.

It is a pretty safe guess that, if you smoke one tin of Prince Albert-all of it-you will continue to smoke Prince Albert from then on. That has been the experience of other pipe-smokers. It's worth finding out about. Buy some P. A. today.

no other tobacco is like itl

600 SURGEONS VISIT CAPITAL HOSPITALS

Norfolk & Western Men Open Two-Day Convention at Willard.

Registration and sightseeing occupied the time of approximately 600 surgeons and members of their families who yesterday arrived in Washington to attend the two-day convention of the Association of Surgeons of the Norfolk & Western Railway Co., which opened at the Willard hotel.

Specially chartered buses carried delegates through the Capital and delegates through the Capital and suburbs, where they inspected hospital facilities. The first day of the convention closed officially with a dinner at the hotel. Later, the delegates were entertained at the theater.

The first and only business session is scheduled for this morning, when addresses are to be given by

when addresses are to be given by prominent surgeons. Information bureaus to assist visiting surgeons have been established in the hotel lobby, and guide books on the Capital were distributed.

Philosophists Hear Dr. E. E. Richardson

Visualizing an approaching age in which philosophical thought will be dominant, Dr. E. E. Richardson, president of the Society for Philosophical Inquiry, yesterday afternoon delivered an address on "The Modern Triangle" at the first meeting of the organization this season in

of the organization this season in the lecture room of the New National museum.

The three angles of this modern triangle, Dr. Richardson explained, are science, naturalism and evolution. At present the world is steeped in a naturalistic element, he declared, which will gradually evolve into a philosophical epoch. More idealism is needed, he said.

WASHINGTON INCOME TAX LAW INDORSED AT DISTRICT INQUIRY

President of Kalorama Citizens Favors Plan to Supplant Levy on Intangibles.

GRIEVANCES DISAPPOINT MEMBERS' COMMITTEE

Only Fifteen Witnesses Appear in Response to 100 Invitations to Testify.

The proposal of Senator King, of Itah, that an income tax be levied n Washington found support beore the House District subcommit tee yesterday. George F. Mitchell. president of the Kalorama Citizens association, recommended this form of taxation to supplant the present levy on intangibles. The income levy should be low and liberal de-ductions allowed, he said. Local civic representatives gave out a list of grievances and recommendations and the hearing was adjourned until and the hearing was adjourned until November 8. Out of the more than 100 invitations which Representa-tive Frank R. Reid, of Illinois, ex-tended to representatives of citi-zens organizations, trade bodies zens' organizations, trade bodles and school associations, only fifteen

brought responses.

Mr. Reid commented on this apparent lack of interest in local affairs to Mr. Mitchell. The latter gave it as his opinion that the peo-ple were so used to letting the Fed-eral government run, their affairs and so convinced that it was going to continue to run them irrespective of their feelings that it was hard to get them interested.

Favors Elective School Board.

He expressed appreciation for the interest which the House District committee has shown in local problems the past several months, however, and said it augured well for the future.

Mr. Mitchell also advocated an

lective school board, separation of District finances from the budget bureau, and a new judiciary to deal with juveniles. He expressed his opinion to local suffrage but favor-ed national representation.
